January 28, 2019

The Honorable Earl Blumenauer  
Member of Congress  
1111 Longworth House Office Building  
Washington, DC 20515

Dear Congressman Blumenauer:

The eleven members of the Highway Materials Group (HMG) strongly support and endorse the Rebuild America Act of 2019. This legislation will ensure the financial solvency of the Highway Trust Fund (HTF) through increasing motor fuels user fees. Our members manufacture and distribute the critical materials used in building our nation's surface transportation network.

With a looming fiscal cliff for the HTF, an aging infrastructure network, and a record number of road users, we know that this bill will help to rebuild our roads and bridges, reduce congested highways and streets and enhance safety in every congressional district.

The HMG strongly endorses this legislation and commends Cong. Blumenauer for his continued and steadfast leadership on ensuring the long-term solvency of the Highway Trust Fund.

Sincerely,

Highway Materials Group
